

**Healthcare Subcommittee of Summit County  
Opiate Task Force meeting  
MINUTES**

**October 3, 2018  
3:00PM-4:00PM**

***Akron Children's Hospital – Maternal Fetal Medicine  
Considine Building – Suite 5500***

**Clinical Care Report Out** *(Best Practice, Patient Education, Protocols)*

The Healthcare group met to talk about and map out the current processes use by agencies/hospitals and outpatient settings for patients and enter treatment and to identify any gaps in the systems. Dana, with the groups input, started a flow chart showing hospital pathways and outpatient practices pathways.

The goal is to look at the different systems and understand their complexity and where will we need to address gaps. Discussed ways a patient ends up entering treatment and how they flow through system.

The focus of these pathways is how patients enter care. We are looking for a warm hand off so our patients do not fall by the wayside. Everyone present discussed their agency/hospital/outpatient setting and how they operate. A flow sheet will be prepared and sent out to the members. Clouds represent an issue or gap in care steps.

**Maternal/Neonatal**

No report.

**Pediatric Education Training**

No report.

**Adult/Addiction Services** – Dr. Thrasher/Dr. Smith

Goal 4 – Brief discussion in regards to the issue, deferred back to larger group for more conversation.

**Education and Training** (providers, OARRS, NEOMED, Other) – Dr. Thrasher

No update.

**Access/Dispensing** (Access, EMS, Pharmacy)  
No update.

**Legislative Updates**  
No update.

## **Group Planning**

**Homework Assignment:**

Dana handed out a form for mapping.
